San Jose, CA • (408) 892-6485 • jared.lomeli@sjsu.edu • [linkedin.com/in/jared-lomeli](https://www.linkedin.com/in/jared-lomeli) • github.com/jaredlomeli-sjsu

SUMMARY

Engineering Technology student at San José State University specializing in Computer Systems Network Management, with hands-on experience designing segmented enterprise networks in Cisco Packet Tracer (VLANs, ACLs, AAA/RADIUS, IDS, IPSec VPN). Pursuing CompTIA Security+ certification (target: August 2026) alongside self-directed network security study and active involvement in SJSU's Network Engineering Technology Society. Seeking an IT Support, Network/NOC, or SOC Analyst internship to apply technical training and proven leadership in a hands-on team environment.

EDUCATION

San José State University — San Jose, CA

Expected June 2029

Bachelor of Science in Engineering Technology, Computer Systems Network Management

Upcoming Coursework (Fall 2026): Introduction to Networks, Python Programming, Electronics

Pioneer High School — San Jose, CA

June 2025

High School Diploma • GPA: 3.86 Unweighted / 4.06 Weighted • Honors Graduate

TECHNICAL SKILLS

- **Networking & Security Architecture:** VLANs, Layer-3 switching, ACLs, AAA/RADIUS authentication, IDS, IPSec VPN, DHCP, subnetting, TCP/IP, OSI Model, firewalls — applied via Cisco Packet Tracer labs and CompTIA Security+ studies (in progress)
- **Operating Systems:** Windows; Linux fundamentals through self-directed study (command line, file systems, user permissions)
- **Security Concepts:** CIA Triad, authentication & access control, common threats and vulnerabilities, risk management basics
- **Tools & Platforms:** Cisco Packet Tracer, hardware troubleshooting, technical documentation; introductory exposure to Kali Linux, Metasploitable, and Wazuh through self-directed lab exploration

CERTIFICATIONS & TRAINING

- **CompTIA Security+ — In Progress** (target exam: August 2026)
- Valid California Driver's License

PROJECTS & SELF-DIRECTED LEARNING

Segmented Enterprise Network — Cisco Packet Tracer Lab (Security+ Domains 3–4)

- Designed and configured a segmented enterprise network with three VLANs (Management/IT, Employees, Servers/Wireless) using Layer-3 core switching and inter-VLAN access control.
- Implemented AAA/RADIUS authentication, ACLs, an IDS monitoring point, centralized syslog, and a honeypot to apply defense-in-depth concepts from Security+ coursework.
- Configured a remote branch site connected via site-to-site IPSec VPN, simulating secure connectivity for a distributed enterprise network.
- Repo: github.com/jaredlomeli-sjsu/packet-tracer-security-plus-lab

CompTIA Security+ Self-Study Program (Target: August 2026)

- Working through SY0-701 objectives covering threats, cryptography, identity management, and network security; reinforced through hands-on Packet Tracer labs.

EXPERIENCE

Parking Attendant / Team Mobile — SAP Center at San Jose, San Jose, CA

Nov 2023 — May 2026

- Operated PCMS digital signage systems and two-way radio communications to coordinate traffic flow for events serving up to 17,000 attendees.
- Trained new attendants on standard operating procedures, technology systems, and customer service protocols to improve onboarding consistency.
- Maintained inventory of equipment and supplies, keeping accurate counts and ensuring operational readiness for high-volume events.
- Resolved on-the-spot guest issues under time pressure, applying calm decision-making and clear communication in a fast-paced environment.

ACTIVITIES & HONORS

- Member, SJSU Network Engineering Technology Society (NETS)
- Taekwondo Black Belt — multi-year commitment demonstrating discipline and consistent goal achievement
- Pioneer HS Honors Graduate • Languages: English (Native)
